Description

System Pedal from SHIMANO
Tired of slipping off your pedals on steep bends or difficult terrain? The SPD-R550 from SHIMANO is a System Pedal that creates a fixed connection between the Pedal and a special shoe to counteract this.
The SPD-R550 is rust-free and robust because the entire pedal - body and frame - is made of plastic. To make pedaling more efficient, stable and comfortable, SHIMANO has developed the SPD system, which is also compatible with this pedal.
