Article number:	07173123
Original number:	AD-CLK KIT
EAN:	4250311388168
EVP:	**22.95 €**

Description

For flexibility in brake components
Due to their excellent performance, hydraulic disc brakes are very popular and are widely used. Especially if you put a lot of strain on your brakes, it can quickly become necessary to adjust the braking system.

This brake rotor adapter allows the installation of a 6-bolt brake rotor (IS) on a SHIMANO Center Lock hub with a 6-bolt mount. The adapter is supplied with bolts.

With this brake rotor adapter by CONTEC, you have increased flexibility in the choice of your brake components and can adapt the drivetrain of your bike to your individual preferences.

Technical data

Mounting	front, rear
Brake type	Disc brake
Range of application	BMX, City, MTB, Road, Trekking, Triathlon
Main colour	black
Material 1	aluminium
Weight	0.040 kg
Version	mechanic, hydraulic
