### Description

**WERA "Tool-Check Combi 1" tool kit**
**1/4", bit / socket set - bits, manual operation, water pump pliers**
Tool set for hand and machine use. The green locking elements of the Tool-Check secure the tools during transport. Includes 1/4" bits ratchet in drop-forged solid steel design, fine-tooth mechanism with 60 teeth, allowing a small return angle of 6° for precise work. Simple left/right switching, ergonomically shaped ratchet head and lever, Wera adapter #870/1 (1/4" external hexagon to 1/4" external square) for use with 1/4" sockets. 7 Zyklop spanner sockets (1/4") for hand and machine operation (with ball catch groove) and knurling at the rear end for a good grip when screwing by hand. The Take it easy tool finder with color coding by size guarantees that the required tool can be found quickly and easily. Made from matt chrome vanadium. The set contains 28 bits in BTZ and BTH design with BiTorsion zone (this prevents premature breakage of the bit), in tough-hard design (Z) for universal use, Phillips and Pozidriv cross-recess, TORX®, TORX® BO, slotted and inside hexagon, as well as KNIPEX Cobra® high-tech water pump pliers (#87 01 125).
