CONWAY Electric MTB full suspension "Xyron LT 9.0" (#1)

Description

The Conway "Xyron LT 9.0" is a full suspension E-MTBs that scores with ideal geometry, excellent equipment and a high-performance drive system. It is equipped with the powerful 5th generation Bosch "Performance CX" mid-motor and a battery capacity of a whopping 800 Wh. The 29" wheel sets ensure excellent rollover behavior, handling and stability, while the 12-speed "Deore XT" derailleur system from Shimano guarantees precise and smooth shifting performance.

The combination of the "Rhythm 38 Float" fork and the "Float X Performance" Damper from FOX enables first-class suspension that adapts perfectly to the changing demands of the terrain. With a fork travel of 170 mm and a frame travel of 160 mm as well as rear suspension kinematics that offer plenty of support in the mid-travel range, the bike generates outstanding handling on both technical descents and steep climbs. The geometry in combination with the high-quality suspension ensures optimum traction and control, so that riders can have complete confidence in their bike even on the most demanding terrain.

Complemented by the precise hydraulic Disc Brakes, the "Xyron LT 9.0" is not only powerful, but also offers the safety you need for exciting MTBs adventures.

Technical data

Battery capacity	800.0 Wh
Features	suspension fork, damper, electronic sliding aid
Colour designation	desert matt / bronze matt
Main colour	beige
Secondary colour	gold
Travel	170 mm
Gender	gents
Gears	12-speed
Type	full suspension
Wheel size	29 "
Material 1	carbon
Engine power	250 W
Frame height	44 cm
Weight	24.200 kg
Stem length	50.0 mm
Permissible system weight	140 kg
Chainstay	453 mm
Toptube	618 mm
Wheel distance	1276 mm
Reach	475 mm
Seat tube	440 mm
Seat angle	76.6 °
Stack	644 mm
Steering tube	130 mm
Steering tube angle	63.5 °
