CONWAY Electric SUV "Cairon SUV HD B" (#1)

Description

When the day involves more than just getting from A to B, the Cairon SUV HD B really shines. Grocery runs, appointments, luggage, and longer routes along quieter side streets feel less like a chore and more like a well-paced ride on this e-bike.

The Wave frame makes getting on the bike pleasantly straightforward, while the Suspension Fork and Fenders make everyday riding on rough roads noticeably more relaxed. The Bosch motor provides confident assistance when hills, headwinds, or extra weight would otherwise make pedaling harder. Thanks to the belt drive, the bike remains pleasantly low-maintenance and quiet, even when used daily and in all kinds of weather.

With a maximum load capacity of up to 170 kg, the Cairon SUV HD B also offers the necessary capacity for heavy groceries, packed bags, or other loads that need to be reliably transported in everyday life. Hydraulic disc brakes add a distinct sense of control to the overall experience. The result is a modern, down-to-earth e-SUV bike for people who have a lot to get done and enjoy riding in comfort.
