CONWAY Electric SUV "Cairon SUV FS 6.0" (#1)

Description

Whether navigating city traffic, undulating bike paths, or longer rides on paved trails, the Cairon SUV FS 6.0 demonstrates just how smooth a full-suspension SUV e-bike can be. The full suspension noticeably smooths out the ride when cobblestones, rough asphalt edges, or gravel sections make the path bumpier. The Bosch Performance Line CX engine provides powerful assistance when climbs, headwinds, or longer distances demand more effort, yet remains seamlessly integrated into a controlled overall riding experience.

Fenders and everyday-ready features make the bike ready for real-world trails, not just for scenic tour routes. The result is a comfortable, high-quality e-bike with plenty of power in reserve for everyday use, excursions, and spontaneous detours.
