SELLE Bassano Saddle "Volare Trekking"

Description

The SELLE BASSANO Volare Trekking is designed for extended tours and daily use. The 3-zone comfortPlus system provides targeted pressure relief and pleasant seating comfort, even on longer journeys. The permanently elastic cold foam is light, dimensionally stable and hardly heats up even in strong sunlight. With a CrMo frame and a load capacity of up to 150 kg, this saddle offers reliable stability and durability - ideal for demanding trekking rides.
