CONWAY Gravel bike "Nyvo 12.0 C" (#1)

Description

Do you want a sporty commute and take off on gravel at the weekend? The "Nyvo 12.0 C" combines gravel performance with urban suitability for everyday use. The geometry puts you in an active but comfortable riding position: the reach and stack are balanced for control and efficiency, while the slack head tube angle and short Chain Stay ensure agile handling and direct propulsion - ideal for fast tours and daily commutes.

The lightweight carbon frame offers fully integrated cables, plenty of mounting points and space for wide tires. The hidden neoprene bag in the frame compartment is a clever detail. Fenders, lighting system and Carrier make the bike suitable for urban use - without compromising its gravel character. With the Shimano "GRX" gears, you are technically well equipped.
