### Description

The QUARQ Crank Spider Powermeter "DZero" made of aluminum is the precise solution for power measurement on 10- and 11-speed drives. With 5-arm design in black, made of aluminum, it fits exclusively to DUB crank sets with 8-bolt mounting. Compatible with chainrings from SRAM, Shimano, Rotors, FSA, Praxis, Wickwerks and other brands. The double-sided measurement provides exact values with an accuracy of  $\pm 1.5\%$ . Thanks to Bluetooth and ANT+, data transmission is wireless and reliable. MagicZero enables automatic calibration, while the tool-free battery change with CR2032 offers maximum ease of maintenance. The IPX7 water protection makes it ready for any weather.
