### Description

**Excellent visibility with powerful brightness**
Plenty of brightness for your e-bike: If you choose the “Luna 120 E+” LED Front Light from CONTEC, you can’t go wrong when it comes to visibility, being seen, and safety on the road.

With an illuminance of a whopping 120 lux, this Front Light is among the very best. This means you’ll see the road ahead brightly lit even in the dark. The lights are designed to be connected to an e-bike battery. They’re suitable for systems operating at voltages between 6 and 48 V.

The front light features an aluminum housing adorned with an illuminated CONTEC logo. The “Luna 120 E+” also includes a removable front reflector, which further improves visibility. In addition, the lights come with a plastic mount.

You definitely don’t have to worry about safety issues with this LED Front Light. It naturally bears a German certification mark and thus complies with the requirements of the German Road Traffic Licensing Regulations (StVZO). With this high-quality e-bike light, you’ll have a clear view of traffic even in the dark and can feel completely safe.
