CONWAY Gravel bike "GRV 10.0" Mod. 24

Description

With the new CONWAY "GRV 10.0" you have all the options: Whether you use it as a winter training bike, ride cyclocross races or go on a long-distance bikepacking tour in summer - the "GRV 10.0" is like a best friend who goes through thick and thin with you, only through deep mud and fast straight ahead on smooth asphalt.

The now deeper Seat Stays provide a little more flexibility and damping, without sacrificing stiffness when pedaling. The lightweight, robust and torsion-resistant carbon frame with integrated Saddle Clamp gives you a sporty riding position and riding style as usual. It is pleasantly compact and maneuverable, but always has the smoothness to confidently stay on track over long distances.

The carbon frame offers plenty of tire clearance: the 40 mm wide "G-One Allround Classic" from SCHWALBE are mounted on the DT SWISS "1800 Spline" wheels. On tour, the tires give you welcome damping comfort. The high-quality version of the new SHIMANO "GRX" drivetrain with 30/46 teeth on the chainring and an 11-speed cassette with 11-34 gearing provides support for propulsion.

Technical data

Colour designation	red metallic / black metallic
Main colour	red
Secondary colour	black
Gender	gents
Gears	22-speed
Type	gravel bike
Wheel size	28 "
Material 1	carbon
Frame height	45 cm
Weight	9.300 kg
Stem length	80.0 mm
Permissible system weight	130 kg
Chainstay	420 mm
Toptube	528 mm
Wheel distance	998 mm
Reach	361 mm
Seat tube	448 mm
Seat angle	73.5 °
Stack	564 mm
Steering tube	140 mm
Steering tube angle	71.0 °
