Product data sheet

Kellermann Power resitor "i.NEX"

Article number:	04613726
Original number:	111.100
EAN:	4029265111005
EVP:	**89.95 €**

Technical data

Weight	0.150 kg
Voltage	12V

Description

KELLERMANN "i.NEX" Power Resistor
Kellermann i.NEX provides a universal electronic solution for turn signals, taillights/brake lights, and parking lights. Compatible with classic motorcycles, new models, and modern operating systems. Automatic control of the flashing frequency, error messages on the instrument panel, and elimination of disruptive standby currents. Allows the installation of turn signals with higher power consumption (watts) and higher voltage (volts) than the original, as well as installation on motorcycles with negative-polarity turn signals.
It allows for the connection of up to four turn signals, as well as a Rear Light, brake light, and parking light., **12 V**
