chike Electric cargo bike "e-Dog" Mod. 24

Description

Dog transport with the "E-Dog" cargo bike

The new "E-Dog" is made for you and your dog. Your dog can take a seat in the Cabin on trips in road traffic or for a long walk in the woods and arrive safely at your destination.

Special accessories for dog transport

The German-made Cabin measures 68 cm x 64 cm x 61 cm (L x W x H) and is designed for medium-sized dogs such as Border Collies or Labradors. The Cabin has large windows and sturdy side walls as well as a robust tubular construction. The fly screen is included. Drivers have a good view of their best friend through the window. The dogs lie on their usual cushion in the Cabin - or on an optional cushion. The CHIKE accessories also include rain protection and a pull-out step for cozy dogs. It can be stowed under the Cabin without rattling.

What's more, the Cabin offers enough space to carry large purchases - and of course to get the dog food!

For transporting dogs, children and other loads

The CHIKE's tilting chassis can be fixed and secured with a parking brake so that the dog can sit safely in the Cabin. As with the other CHIKE models, the permissible total weight is 200 kilograms.

The "E-Dog" uses the same tried-and-tested trike platform as the "E-Cargo" and the "E-Kids". The tilt chassis and compact dimensions also impress with their natural driving characteristics. The "E-Dog" Cabin can also be interchanged with the other bodies.

Technical specifications of the "E-Dog"

TEKTRO hydraulic Disc Brakes on all three wheels ensure precise deceleration. The SHIMANO "Steps E6100 CRG" mid-motor provides responsive propulsion. The battery has a capacity of 504 Wh. The SHIMANO "Nexus" Di2 hub gear system, which shifts through all 5 gears fully automatically and in an energy-saving manner, takes care of the fine-tuning of the drive. It intelligently shifts to a low gear automatically when starting off in start mode. The robust and virtually maintenance-free GATES Straps round off the drive package.

Article number: 02300394

Original number: 4251971144613

EAN: 4251971144613

EVP: **6999.00 €**

Technical data

Battery capacity	504.0 Wh
Features	system carrier, electronic sliding aid, fender
Colour designation	kristallweiß
Main colour	white
Gender	unisex
Gears	5-speed
Type	transport bike
Wheel size	16 / 20 "
Material 1	aluminium
Engine power	250 W
Frame height	50 cm
Weight	42.000 kg
Permissible system weight	200 kg
