Amount of bikes	3 pcs.
Design	clutch carrier
Main colour	black
Secondary colour	silver
Fat bike / E-bike	no
Max. load	60.0 kg
Weight	23.500 kg

Description

Plenty of space for three bikes
The "VeloCompact 3 13-pin" from THULE is a versatile rear carrier for 3 bikes or e-bikes weighing up to a maximum of 60 kilograms, with each bike weighing 25 kg. With the optional Adapter, you can even carry a fourth bike. The "VeloCompact 3" transports bikes with a large wheelbase thanks to the extendable rim holders. The bikes can be secured to these using the long rim straps with the practical ratchet function. Frames can be easily secured with the removable bike holder arms, whose knobs can be locked.

The "Velo Space XT 3" can be easily folded down using the foot pedal, even when loaded with bikes, so that you can access the trunk when transporting bikes. In addition, the bikes can be locked to the bike carrier (and the bike carrier to the trailer coupling). The locks are included in the scope of delivery.

For storage in the garage or trunk, the carrier can be folded from the dimensions (L x W x H) 126 x 74 x 80 cm to 103 x 74 x 35 cm. Weight: 19 kg. With 13-pin plug connection.
