CONTEC Grip "Trail Pro"

Description

Optimal grip for your hands

Athletes, mountain bikers, and discerning cyclists know how important riding comfort and safety are—especially when it comes to the Handlebars. With the CONTEC "Trail Pro" handlebar grips, you can equip any bike like a pro. The secret to this product lies in its D2 component design. The palm area features soft gel padding that ensures comfort and excellent shock absorption. The outer surface of the grip is firm, providing optimal support and grip on the Handlebar.

This high-quality product comes as a pair and is already equipped with a matching handlebar clamp. It is compatible with the "G-Cap" Grip End Caps and the "G-Ring" Grip Clamp Rings.

Each grip is 135 mm long. Thanks to their design in the attractive paints of black and white, the CONTEC "Trail Pro" grips are not only a functional but also a decorative addition to any bicycle.
