

Product data sheet

CONTEC Bell "Bing GL"

Description

The CONTEC Bing GL bell makes a bright sound to alert other road users to your presence. The clapper can be rotated through 360° so that the bell can be mounted on both sides of your handlebars as well as on top and bottom. The bell has a diameter of 33mm.

The Bing GL is part of the CONTEC G-Link system, which allows accessories to be easily mounted on the CONTEC MERGE grips, bringing important accessories such as the bell or mirror closer to the hand. This not only ensures improved ergonomics, but also a tidy appearance.
