Description

CONTEC fork shaft extensions

If you want to raise your Handlebar, the "Heads-Up Spin" fork shaft extensions from CONTEC are just what you need. The extension is suitable for 1 1/8" diameters and has a spin function. This allows the Handlebar of your bike to be rotated by 90° - easily and without tools. This means it can be compressed and stowed or transported in a space-saving manner. The extension is equipped with four 5 mm Spacers.
