

Product data sheet

BUSCHiNG Battery tester "100807 Light"

Article number:	65590424
Original number:	100807
EAN:	4026736528386
EVP:	296.31 €

Technical data

Connection type	charging clips
Design	battery diagnosis
Battery type	AGM, lead-acid, EFB, gel, standard, VRLA
Features	LCD / LED display, charge status display
Range of application	passenger car, SUV, caravan, transporter / small truck, truck, bus, boat, agriculture
Main colour	black
Weight	2.100 kg
Voltage	12V, 24V

Description

BUSCHING Battery Tester "100807 Light"
battery and start/charging system tester for start-stop EFB / AGM batteries,
battery size: 25 - 2400 CCA

Can tests 12V start/stop/recuperation starter batteries EFB (Enhanced Flooded Battery), AGM (Absorbent Glass Mat) and 12V starter batteries (lead-acid, gel and fleece batteries/AGM). Other options are start/charge system tests for 12/24V systems. An integrated thermal printer presents all measurement results as text and graphical form in selected menu language.

Test norm: JIS, EN, DIN, SAE, IEC, **with LCD display**
