Description

Our "Cairon SUV FS 4.0" makes your everyday life more sporty, more comfortable, and simply more flexible. The Bosch mid-drive motor with Smart System delivers powerful assistance up to 25 km/h, while the 800 Wh Battery—elegantly integrated into the down tube and easily removable from the top—ensures long-lasting rides.

Thanks to 120 mm of suspension travel front and rear, you'll glide effortlessly over asphalt, gravel, or forest trails. The Shimano "Deore XT" 12-speed derailleur shifts precisely, and the hydraulic disc brakes provide reliable stopping power. With 27"-wheels, you'll enjoy a smooth ride and excellent maneuverability.

Practical features: The HTM 2.0 front rack mount allows for smart transport solutions, the BCM module-ready design makes your bike digitally connectable, and the Range Extender-ready frame offers you even more range. Compatibility with child seats and trailers, along with eMTB+ mode, round out the complete package.
