THULE Bike Case "RoundTrip Transition"

Description

Safe transportation

The THULE "RoundTrip Transition" is a high-quality hard-shell case for bicycle transport with an integrated Workstand. And with the best protection: The racing or cyclocross bike or MTBs is protected by the sturdy ABS shell and the robust aluminum base rail, on which the bike is firmly fixed without the wheels (including adapters for 15 mm and 20 mm Thru Axles) The wheels are placed in extra nylon wheel pockets and thus do not come into contact with the frame. The integrated wheels help when transporting the 17.6 kg cases.

The holding rail is also part of the Workstand, on which the bike can be assembled immediately on arrival. External dimensions (L x W x H) 137 x 39.33 x 94 cm, internal dimensions: 134 x 38 x 90 cm.
