Description

The King of Rearview Mirrors: Our CONTEC E-View King XS gives you maximum visibility.
Thanks to the large mirrors, you always have a clear view of traffic behind you and can relax and focus on your drive. Areas that were previously blind spots are now finally within your field of vision, without you having to take your eyes off the road ahead. With the swivel function, you can adjust the E-View King XS exactly to suit you and your seating position. The wider nylon arm with fiberglass reinforcement provides plenty of stability, ensuring the Rearview Mirror doesn't wobble even on uneven roads.
All our Evo models are equipped with a Dazz lens made of special safety glass that reduces distracting reflections by 75%.
The E-View King XS is mounted using handlebar inner clamps and is available in left- and right-hand versions. Before installation, make sure your handlebar's inner diameter is no larger than 16 mm.
