

CONTEC Mini Pump "Air Support Mini"

Description

Maximum support with minimum pack size!

Our "Air Support Mini" Mini Floor Pump is the ideal companion on long bike rides. Thanks to the foldable base, the small and powerful Stand Pump is particularly compact. It also has a Holder that allows you to attach the pumps to the frame of your bike.

The CONTEC Air Support Mini is compatible with all common valves (Dunlop, Presta & Schrader). Its practical T-grip enables maximum power transmission when inflating.

So if you lose a little air on a longer trip, you can inflate your Tires with the CONTEC Air Support Mini in no time at all. The easy-to-read Pressure Gauge provides an accurate indicator of how much air the tire still needs. The pumps reach a maximum air pressure of 8 bar or 120 psi.
