

SUPERNOVA Rear Light "E3 Tail Light 2"

Description

Bright rear insurance

If you are guided by a powerful Front Light on your bike, you also want to be seen and protected by the Rear Light. SUPERNOVA has therefore developed the "E3 Tail Light 2" for the E3 Front Light. With "Twin Beam Technology", it offers very bright illumination to the rear and sides of a total of 250°.

The parking light electronics of the "E3 Tail Light 2" are outsourced to the E3 Front Light. This explains the small design and the weight of just 12 g of the CNC-milled rear lights. It is also completely waterproof and, with its three LEDs, is one of the brightest rear lights approved by the German Road Traffic Licensing Regulations (StVZO). Available in versions for mounting on the seatpost and on the Carrier.

Article number:	07114283
Original number:	Q-TK2-V12-BLK
EAN:	4260224790576
EVP:	59.90 €

Technical data

Design	rear light
Attachment	carrier 50mm
Operating voltage	12,0 V
Range of application	bike
Colour designation	schwarz poliert
Main colour	black
Functions	standlight
Illuminant	LED
Material 1	aluminium
Weight	0.111 kg
Current type	DC
Power supply	E-bike battery
