Article number:	07476258
Original number:	TP-1 MS DB
EAN:	4251971171503
EVP:	**79.95 €**

Description

A hub is like the heart of a wheel—it forms the stable core that ensures a smooth riding experience. A rear hub also has the additional task of securely holding the cassette in place to promote both optimal power transfer from the Chain and seamless shifting.

Our CONTEC EROQ cassette rear hub is exceptionally sturdy and can therefore withstand the high torque and heavy weight of an e-bike. The hub features an aluminum body with a hollow axle and is attached to your bike using a compatible QR skewer (e.g., CONTEC EROQ.R Rear). The compatible QR skewer is included with the hub. The standard mounting width of the CONTEC EROQ rear cassette hub is 141 mm. It is also compatible with 6-bolt brake rotors and has 32 spoke holes.

The EROQ rear hub features a robust Shimano Micro Spline Freewheel Body made of durable steel with high-quality ball bearings. The ratchet freewheel system, with 27 teeth and 3 Paws, ensures rapid interaction between the freewheel and the hub body, so that your pedaling effort is quickly converted into forward motion.

Technical data

Axle	hollow axle 9 mm
Mounting	rear wheel
Type	cassette
Brake mounting	disc - 6-hole
Installation width	141 mm (Boost)
Main colour	black
Freewheel body	Micro Spline
For wheel	standard
Chainline	47.5 mm
Bearing type	ball bearing
Material	aluminium
Freewheel body material	steel
Weight	0.469 kg
Text wheel configurator	suitable for E-bike
Packaging	assembly packaging
Hub body material	Aluminium
Freehub system	27
Number of pawls	3 pcs.
Quick release	incl. 156.5 mm quick release
Spoke type	J-Bend
Flange diameter	68 mm
Spoke hole diameter	for 2.00 and 2.34 mm
Gears	12-speed (chain drive)
Brake track	yes, no
Number of spoke holes	32 holes
Hub model	Eroq DB
