

SRAM Cassette "PG 720"

Description

SRAM "PG 720" downhill cassette

The GX DH cassette for downhill sports was developed with the aim of making the best possible use of gravity. Its compact design allows more spoke clearance and the gears are optimally spaced. The "PG 720" is suitable for 7-speed drivetrains and compatible with SHIMANO 11-speed Freewheel Bodies and SRAM 11-speed chains. Gradation: 11-13-15-17-19-22-25 teeth.

Article number:	03373804
Original number:	00.2418.155.000
EAN:	710845919374
EVP:	41.00 €

Technical data
