

Product data sheet

Qio Electric compact bike "EINS AP-8" (#1)

Description

If you want to enrich your everyday life with an e-bike, Qio's "EINS AP-8" is the perfect choice. The compact e-bike impresses with its space-saving size and the smart Bosch system (BES3). The "Purion 200" Display provides all important information at a glance. The maximum rider weight is 120 kg.

Practical and comfortable: The "EINS AP-8" has a low step-through with Handle, tool-free QR for Saddles and Handlebars and a MIK HD system luggage carrier. With its 20" wheels, it maneuvers agilely through the city.

The Bosch "Active Line Plus" engine supports up to 25 km/h, powered by a 400 Wh "PowerPack". The Battery can be easily removed and recharged. The 8-speed Shimano "Nexus" hub gears are low-maintenance.

Thanks to the bright LED Front Light and Rear Light with stop light function integrated into the Carrier, you are safe on the road in the evening. The Stem can be rotated by 90° and the Pedals can be folded down - perfect for saving space.
