

Product data sheet

CONTEC Shim "Upsize"

Description

Ideal for equalizing distances

Equalize and overcome distances quickly and easily: This is made possible by the CONTEC spacer sleeves with a base diameter of 27.2 mm. The cover compensates for differences between the diameter of the seatpost and the frame tube on the bike, making the two compatible.

The slotted spacer sleeves are made of high-quality aluminum and are suitable for an extension to a diameter of 28 mm to 31.6 mm.
