

CONTEC Hub Dynamo "Powerhouse Hub 2+"

Description

Strong & reliable for bright light

Plenty of power for bicycle lighting: With the "Powerhouse Hub 2+", CONTEC presents a dynamo hub whose performance and robustness are convincing. Thanks to its maintenance-free operation, this dynamo ensures that the lighting is permanently powered in any weather and reliably emits powerful light.

Important are the powerful NdFeB magnets, which deliver a high degree of efficiency with a low resistance. Even at low speed, there is enough current to ensure that the front and rear light are continuously lit.

The dynamo hub is intended for disc brakes with a 6-bolt mount. It was designed for a 15 mm thru-axle, but can be converted to 12 mm and a quick release using adapters.

It is intended for wheel sizes from 26 to 29". There are several options for the number of spoke holes: The dynamo hub is available for both 28, 32 and 36 hole flanges.

With its efficient energy production, the CONTEC Powerhouse Hub 2+ sets the bar. With this dynamo hub, the front light and the rear light are always supplied with plenty of energy.

Technical data

Axle	15mm full-floating axle
Mounting	front wheel
Type	hub dynamo
Brake mounting	disc - 6-hole
Installation width	100 mm
Main colour	black
For wheel	standard
Suitable wheel sizes	20, 24, 26, 27,5, 28, 29 "
Material 1	aluminium
Weight	0.455 kg
Hub body material	Aluminium
Spoke type	J-Bend
Flange diameter	66 mm
Spoke hole diameter	for 2.00 mm
Electrical power	6 V / 3 W
Brake track	yes, no
Number of spoke holes	32 holes
Hub model	Powerhouse 2+
