Selle SMP Saddle "Hybrid Gel"

Description

Ergonomic & flexible to use

Always the right choice: the "Hybrid Gel" from SELLE SMP. It is made for use on a road bike or MTB as well as for daily commuting or single speed. The soft foam padding with gel gives you an extra high level of comfort on this unisex saddle handmade in Italy, which also adapts to your anatomy.

The SMP4BIKE design with its lowered saddle nose and ventilation channel provides pressure relief in sensitive areas of the body. The hollow at the rear of the saddle protects the coccyx from bruises that can occur on bumpy ground. The Saddle Base is made of stainless steel, the lower shell of nylon with carbon reinforcement. The carbon fiber provides extra cushioning on bumpy roads or rough asphalt. Weight: 360 g, dimensions: L275xW140 mm.

Article number:	07265812
Original number:	ZSTT02HYBRIDGELNESM
EAN:	8032568526090
EVP:	129.00 €

Technical data

Width	140.0 mm
Features	gel
Range of application	road
Main colour	black
Suspension	no spring
Gender	unisex
Length	275.0 mm
Material 1	polyurethane (PU)
Material 2	polyvinyl chloride (PVC)
Cover material	polyurethane (PU)
Rails material	AISI (stainless steel)
Shell material	nylon, carbon
Seatpost diameter from	micro-adjust
Weight	0.365 kg
