

Product data sheet

Ate Brake fluid tester "BFT 320.2"

Description

ATE Brake Fluid Tester "BFT 320.2"

Suitable for DOT 3, DOT 4, DOT 5.1; portable

The device heats the Brake Fluid to its boiling point and displays the temperature measured during this process. The measurement takes approximately 30 seconds. The result is then displayed digitally on the easy-to-read Display. This means that changing Brake Fluid on a hunch is now a thing of the past. The tester is very portable, features a 12 V connection, and allows for convenient measurement of the brake fluid boiling point directly in the vehicle's expansion tank. Thanks to the included sample cup and syringe, measurements can also be taken outside the vehicle. Suitable for brake fluids with boiling points up to 320 °C.

Package Contents: Tester, user manual, sturdy storage case, 1 sample cup and 1 syringe each, **in a plastic case**

Article number: C1000825

Original number: 03.9311-0083.4

EAN: 4006633505994

EVP: **255.85 €**
