

Product data sheet

FAHRER Battery Protection "Universal - Rahmen"

Description

Universal Frame

The "Universal Frame" from FAHRER BERLIN protects a wide range of frame batteries. The 4 mm thick neoprene comes around the battery, protecting it from dirt, stone chips, cold and other weather influences. The protection also allows the battery to reach operating temperature faster and keep it there for longer - which also extends the riding time.

The cover fits the following batteries: BOSCH Classic +, BOSCH Active-/Performance Line, YAMAHA, SHIMANO STEPS E6000 & E8000.

Article number:	03290459
Original number:	340
EAN:	4260416640702
EVP:	24.90 €

Technical data

Design	part protection
Features	durable, dirt repellent, frost resistant
Vehicle type	bike
Main colour	black
Compatibility	Bosch, Shimano, Yamaha
Components	Battery
Material 1	neoprene
Material thickness	4 mm
Weight	0.062 kg
