EAN:	4251971142459
EVP:	**6499.00 €**

Description

The QiO "EINS P-R" is even smarter with the Bosch Smart System. All of the compact e-bike's drive components are networked with one another and controlled via the eBike Flow app. This ensures the bike is always up to date, as new features and updates are installed automatically.

The compact one-size frame is suitable for riders between 1.60 and 1.90 m tall. The Handlepost and Seatpost can be fine-tuned for the ideal riding experience. The "EINS P-R" impresses not only with its compact size but also with its high-quality features.

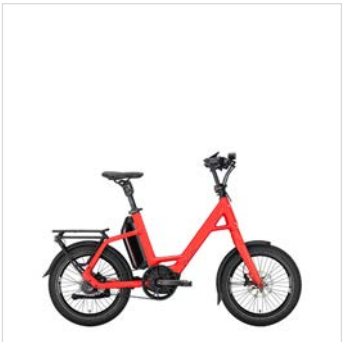

The bike is equipped with a 14-speed Rohloff hub gear system, which is ideal for e-bikes with powerful engines. In addition, the Bosch "Kiox 500" Display shows all gear changes and helps you select the right drive level for the powerful "Performance Line" engine. The 725-Wh battery makes this compact e-bike perfect for long rides.

With 62-mm-wide tires on 20-inch wheels and a Parallelogramm Suspension Seatpost, the bike offers a high level of comfort on various surfaces. The hydraulic disc brakes and high-quality Busch + Müller lighting round out the e-bike, equipping it with everything needed for everyday use in the city and in the countryside.
