EVP:	**35.95 €**

Description

A repair stand makes it easier to work on a bicycle: You clamp the frame and the bike floats freely. Fine adjustments to the drivetrain as well as a tube or chain change take place without any back pain.

The "Rock Steady" stand by CONTEC is therefore ideal for the hobby workshop. If necessary, simply fold it together and store it in the practical "Fiddle Case". The padded nylon case has a large opening in which the repair stand fits easily. The additional compression strap holds all parts tightly together and prevents the contents from rattling.

All small parts of the stand can be stored in the attached compartment and are not lost. The bag has a weight of only 497.5 g. With the adjustable carrying strap it can be carried comfortably over the shoulder to the next project.

The "Fiddle Case" transport bag makes the "Rock Steady" repair stand mobile and complements it perfectly.

Technical data

Design	mobile mounting stand
Weight	1.200 kg
