

Product data sheet

CONWAY Electric allroad "Nyvon 8.0 CF" (#2)

Description

The Nyvon 8.0 CF is your gateway to sporty commuting. Whether you're zipping through the city in the morning or taking a detour down side streets or paved paths after work, this e-gravel bike makes your commute more flexible—but not more complicated.

The Bosch SX drive provides light-on-the-foot assistance when headwinds, small climbs, or longer distances demand more power, while still maintaining a pleasantly natural riding feel. The carbon frame ensures direct, efficient handling, while the flat-bar handlebars provide an upright, comfortable riding position and a high degree of control in everyday urban riding. Together with the 28-inch wheels, this creates a balanced combination of dynamism and long-distance comfort.

The result is a modern commuter bike for people who want a more athletic commute while also valuing comfort, everyday practicality, and uncomplicated versatility.
