Description

The CONTEC Mocca MIK 2.0 is a Basket for cycling and walking! Thanks to its included MIK 2.0 system adapter plate, it can be quickly detached from the MIK 1.0 or MIK 2.0-compatible Carrier and clicked back into place using the corresponding MIK key. You can also mount the Basket universally on normal Carriers without a system by removing the pre-mounted Adapter Plate.

The close-meshed, sturdy baskets have feet so that your belongings don't get dirty when you place the basket and its contents on the ground. The bars with soft grip make it particularly comfortable to wear.

The Mocca MIK 2.0 is compatible with our "FlavorBelt" fastening belt, which offers additional luggage security.
