## CONWAY Electric MTB full suspension "Xyron ST 3.0" (#1)

### Description

The Xyron ST 3.0 really comes into its own on varied trails. The Bosch Performance Line CX engine provides powerful assistance when climbs get longer or the terrain loses traction. With 150 mm of travel at the front and rear, the full-suspension system offers plenty of control over root-strewn sections, loose gravel, and challenging forest trails. This results in a balanced riding experience that excels on both long rides and sporty descents.
