KAYZA MTB hardtail "Spodic 6" Mod. 22

Description

Tidy look meets practical use

The tried-and-tested "Spodic 6" starts the new bike season with a redesigned frame. The developers at KAYZA have come up with something new for this hardtail: internally routed cables. This not only gives the bike a tidy look, no - this makeover also has a practical benefit. The cables are better protected from the weather, mud and dirt. The advantage: wear and tear appears later.

With its 27.5" wheels and sporty frame geometry, the hardtail can be accelerated quickly and steered agilely around sharp bends. The SHIMANO "Deore/Altus" Blender with its 27 gears assists with propulsion, while the SUNTOUR Suspension Fork levels the ground. The SHIMANO "MT-200" hydraulic Disc Brakes are reliable - they don't lose power even in wet conditions.

The KENDA tires with their fine lugs are made for field and forest soil. They bite firmly into loose soil and at the same time run smoothly on asphalt. Thanks to this and the Fork, which can also be locked, the "Spodic 6" is also made for daily city rides.

Article number:	02704112
Original number:	22081021
EAN:	4251507974776
EVP:	729.95 €

Technical data	
Features	suspension fork
Colour designation	walnut brown matt / light blue matt
Main colour	brown
Secondary colour	blue
Travel	100 mm
Gender	gents
Gears	27-speed
Type	hardtail
Wheel size	27,5 "
Material 1	aluminium
Frame height	51 cm
Weight	14.500 kg
Permissible system weight	130 kg
