

Castrol Transmission oil "MTX Full Synthetic"

Description

CASTROL "MTX Full Synthetic" Transmission Oil

75W-140, fully synthetic Transmission Oil meets API GL5 specifications. For motorcycles with a separate transmission or cardan drive. Excellent wear protection even under extreme conditions. Excellent gearshift performance. Significant reduction in drivetrain noise. Friction-reducing components protect against wear, lower transmission temperatures, and ensure optimal performance., **1-liter water bottle**
