

Product data sheet

mipa Paint additive "WBS Beschleuniger"

Article number:	89416804
Original number:	283410000
EAN:	4016176218886
EVP:	16.00 €

Technical data

Design	paint
Range of application	vehicle preparation
Main colour	white
Secondary colour	blue
Container type	bottle
Container size	1.00 kg
Weight	0.800 kg
Type	additive

Description

MIPA Paint Additive "WBS Activator" system component for drying acceleration

For all water-dilutable 1- and 2-component paints. Can be used to shorten the drying times when painting at reduced ambient temperatures. VOC, free of glycols, heavy metals and alkylphenol ethoxylates (APEO).

Note from the manufacturer: Mipa WBS accelerator can be used either in mixture or instead of deionized water for viscosity adjustment. The higher the proportion of WBS accelerator is chosen, the faster the drying will be accelerated. The acceleration of the drying is much stronger than the acceleration of through-drying. As a rule, using Mipa WBS accelerator instead of demineralised water halves the drying time., **1000ml bottle**, colourless
