

Product data sheet

Continental Tube "Compact Wide"

Description

The Compact 20 Wide from CONTINENTAL
It's very flexible, withstands enormous pressure, and can hold air for a very long time: the bicycle tube. You can't go cycling without it.
The ETRTO measurement on the sidewall of the tire indicates the correct tube. The first two digits before the hyphen indicate the tire width in mm, while the digits after the hyphen indicate the tire's inner diameter, which is 20" for the Compact 20 Wide.
The Compact 20 Wide features a 40-mm-long Blitz DV valve.
