KMC Chain "Z1eHX Narrow"

Description

Z1eHX Narrow chains from KMC

In order to withstand the high forces of modern e-bike drives, KMC has designed the Z1eHX Narrow chain especially for use on pedelecs.

As the chain with its 112 links is made of steel, it is particularly hard-wearing.

The special anti-rust coating makes the chain particularly hard-wearing. A Connecting Link is included to connect the two loose ends of the chain. The note "E-Bike-special" indicates that the chain is specially designed for the requirements of an e-bike.
