

Product data sheet

COREXX Brake fluid "DOT 5.1"

Description

COREXX Brake Fluids "DOT 5.1"

Wet boiling point >185 °C, boiling point >270 °C

Synthetic high-performance brake fluid for vehicles with ABS brake system. It has a higher boiling point compared to DOT4, which makes it particularly heat-resistant, increases the corrosion protection and operational safety of the brake system, is certified according to ISO 4925 Class 6 and ensures a delay-free response of the Brake at temperatures down to -40 °C.

Note from the manufacturer: Brake Fluid DOT 5.1 exceeds DOT 3 and DOT4, SAE J 1704, FMVSS 116 and ISO 4925 Class 5-1

Please note:

Only use pure!

Always follow the manufacturer's instructions when topping up.

Absolute cleanliness is required when topping up the hydraulic brake system.

Only store Brake Fluid in its original sealed container, reseal the container airtight immediately after use and collect and dispose of separately.

Brake Fluid must not get into the waste oil!, **250 ml water bottle**
