

This image shows the individual components of a 2-stroke engine assembly, laid out on a white background. The components include:

- Cylinder Block:** A large, black, cast-iron component with a central bore and a side port.
- Piston:** A cylindrical component with a central pin and a skirt.
- Connecting Rod:** A small, cylindrical component.
- Crankshaft:** A large, black, cast-iron component with a central crank pin.
- Gaskets and Seals:** Several small components, including a square gasket, a circular gasket, and a large, light blue gasket.
- Washers and Springs:** Two small, circular washers and two small, coiled springs.
