CONTEC Pedal "Twirl"

Description

Sporty look & good hold

The CONTEC city/comfort pedal "Twirl" impresses with its sporty, modern design, rounded off by a non-slip profile on the contact surface of the aluminium cage. Smooth-running ball bearings on a boron steel axle with the typical 9/16" thread in the robust aluminium body ensure smooth rotation and a long service life.

Due to its attractive design and high-quality finish, the 368 g lightweight "Twirl" is particularly suitable for use on sporty city bikes. Aluminium for a lightweight pedal!
