## CONTEC Twin Bag "Via Weekender"

### Description

The Latin word "Via" means "way" and gives its name to our bike bag collection, which is designed to provide you with practical luggage solutions for all your journeys.

With the Via Weekender, you have double the volume: 33 liters fit in the twin bags, which can be easily mounted on your system carrier thanks to MIK 2.0 or Racktime compatibility.

The Via Weekender is made from 100% recycled and water-repellent polyester and has reflective elements on the sides for better visibility. Inside, there is a large main compartment on each side and two smaller inner compartments. On the outside, there is another zippered compartment for small items.
