Description

INTERPHONE "Sync70 Smart Display" Infotainment System

For using Apple CarPlay and Android Auto on a motorcycle and in a car.

Allows you to mirror your smartphone screen via a wireless Bluetooth + Wi-Fi connection (2.4/5 GHz). This keeps all smartphone functions—such as calls, navigation, etc.—available while your smartphone stays safely in your bag. The GPS dashboard displays speed, direction of travel, and tire pressure thanks to the included tire pressure sensors. Front and rear cameras with 1080p resolution, with the option for continuous video recording via an SD card slot (min. Class 10) that supports memory cards up to 256 GB (not included). Blind-spot detection alerts the Fahrer with visual red displays on the screen.

Thanks to the Quiklox system, the RIDESYNC can be mounted on any Quiklox Holder. 7.0" Display, IP66 waterproof, dimensions: (L x H x W): 18 x 11.5 x 2.5 cm.

Package contents: RIDESYNC unit, USB-C Power Cable, USB-A Power Cable, Power Cable for connecting to the motorcycle battery, Universal Bracket for round tubes Ø 12-30 mm, front and rear cameras, Connection Cable for the cameras, 2x tire pressure sensors, user manual.

Note: This device does not have its own Battery and only works when powered by the vehicle's Power Supply., **black**
