VICTORIA Electric full suspension "PARCOURS 6" (#1)

Description

The "PARCOURS 6" cross-over pedelec is the premium bike in Victoria's 2022 ABC Award-winning range. Both urban areas, moderately rough terrain and direct cross-country sections can be comfortably mastered with the full-suspension model. The fresh two-tone design and minimalist brand lettering are in tune with the times when it comes to style.

High-quality components and gadgets with attention to detail make up the "premium" addition to this pedelec. This also includes the Bosch "Smart System", whose support levels are set via the "Kiox 300" color display. Enhanced with the free eFlow app in Victoria design, the "PARCOURS 6" becomes a control center via a linked smartphone that navigates you, records activities and can connect to other apps and services.

The sporty Bosch "Performance CX" mid-motor guarantees you full support with 85 Nm of torque. Even on steep uphill sections, it drives you forward at up to 25 km/h. It is powered by the Bosch PowerTube battery with 625 Wh, which is fully integrated into the frame and can be removed from the top. Alternatively, the Battery can of course also be charged while remaining in the bike.

Comfort, which the brand stands for, also plays a major role on the "PARCOURS". The air-sprung chassis and the 60 mm wide Schwalbe "Al Grounder" overlander tires provide optimum grip even on unpaved roads.

The 120 lux LED front headlight is also happy to extend the tour into the dark. A special highlight: the Front Light has a high beam function that can be activated at the touch of a button on the Handlebar, which further enhances visibility at night.

Sturdy aluminum Fenders and the MIK system luggage rack are evidence of the premium concept. Reflective Stripes on the tires and the lights ensure roadworthiness. A full 120 lux at the front illuminates every dark corner, while the rear of the bike is equipped with a rear light including a stop light function for extra safety. This makes it easier for cyclists behind to react to spontaneous braking maneuvers, which are often unavoidable on tours.

Technical data

Battery capacity	625.0 Wh
Features	suspension fork, system carrier, chain guard, electronic sliding aid, fender
Colour designation	lime green
Main colour	green
Secondary colour	black
Travel	100 mm
Gender	ladies
Gears	11-speed
Type	trekking bike
Wheel size	27,5 "
Material 1	aluminium
Engine power	250 W
Frame height	56 cm
Weight	29.500 kg
Permissible system weight	140 kg
Chainstay	500 mm
Toptube	619 mm
Wheel distance	1218 mm
Reach	425 mm
Seat tube	560 mm
Seat angle	73.0 °
Stack	635 mm
Steering tube	175 mm
Steering tube angle	68.0 °
