

PETEC Stone chip protection "AQUA"

Description

PETEC "AQUA" Stone Chip Protection

Water-based stone chip and underbody protection, paintable

Protects repaired and body parts from rust and stone chips. Breathable underbody protection, also suitable for wood applications in the RV sector. Excellent adhesion to many surfaces. Forms an elastic, textured, and sealed protective film with a noise-dampening effect. Does not string or drip. Abrasion-resistant texture; quick-drying and sandable. Does not become brittle or crack and adheres even at high temperatures. Resistant to water, salt spray, Oil, and mild acids and bases. Also serves to restore the OEM texture. Environmentally friendly and solvent-free. Curing time: 2 hours at 500 µm; temperature resistance: -30 to +140 °C.

Application: Application temperature: +5 °C to +30 °C. Shake the can well before use. Spray onto a rust-free, clean, dry, and degreased surface using a UBS spray gun from a distance of approximately 25 cm. Once fully dry, the surface can be painted over. Solvent-based paints and other media may inhibit or destroy the curing process. For thicker coats, it is recommended to allow the product to dry between coats. Risk of auto-oxidation with alloys. To ensure the product is suitable for the intended application, it is always recommended to conduct your own tests. Do not apply to the brakes or exhaust system, heat shields, or rubber parts., **1-liter suction cup**, dark gray

Article number:	40902637
Original number:	73710
EAN:	4013558737102
EVP:	40.35 €

Technical data

Design	stone chip protection
Width	8.0 cm
Width	80.0 mm
Features	water-based, quick drying, overpainted, non-dripping, adhesive, temperature resistant, splashwater resistant, salt water resistant
Range of application	car, truck, commercial vehicle, agriculture, Marine, construction machine
Colour designation	dunkelgrau
Main colour	grey
Container type	suction can
Height	25.0 cm
Content	1000 ml
Length	80.0 mm
Length	8.0 cm
