Description

Classic charm & functionality
Classics are timeless: This is also the case with the bicycle bell "Classic Diamond Bing" by CONTEC. This bell is made of brass and thus produces an excellent sound. It also visually impresses with its retro charm.

In functional terms, this bell is in no way inferior to its stylish appearance. It produces a bright "Bing", so that other road users quickly become aware. The "Classic Diamond Bing" thus contributes effectively to safety and undisturbed riding pleasure.

The bell is designed for fixed mounting. It is fitted with a standard clamp and fits handlebars with a 22.2 mm Ø. The diameter of the bell is 26 mm.

Because it shines with a stylish retro look and is also practical to use, the "Classic Diamond Bing" has 2 important advantages. With it, you can ride with peace of mind.
