EVP:	**99.95 €**

Description

Ready for the next adventure: The Katla Helmet is inspired by the breathtaking landscape of its namesake, the Icelandic volcano Katla. It is the largest helmets in our range and is designed for the biggest adrenaline junkies - MTBs! To ensure that you are protected as much as possible on your (e-)MTB, you should always wear a helmet without exception.

The Katla is made from a combination of a lightweight in-mold micro-shell plastic construction with a thin EPS inner shell.

With the magnetic Fidlock snap lock including padding, the Helmet can be opened and closed with one hand without the risk of getting caught. The integrated TriVider, an extra-wide strap divider, ensures a high level of comfort and individual adjustment. Speaking of adjustment: thanks to the XY Sizer (adjustment wheel) on the back of the Helmet, the Katla can be individually adjusted in height and width. The cooling padding inside the Helmet has an anti-sweat effect and is washable and replaceable.

The Visor made from recycled marine plastic and integrated insect net make the Katla the ultimate companion in the great outdoors. The straps made from recycled PET water bottles are reflective and offer added visibility.

Katla is available in two sizes and three colors. Each model has been painted with environmentally friendly, water-based paints.

Technical data

Features	aero, reflective
Range of application	MTB
Colour designation	intense red / black velvet
Main colour	red
Secondary colour	black
Design	In-Mold
Head circumference	55, 56, 57, 58, 59 cm
Head circumference up to	59 cm
Head circumference from	55 cm
Material	plastic
Upholstery	washable, antibacterial, replaceable
Weight	0.360 kg
Closure system	magnet
Adjusting system	Twist2Lock
Visor	adjustable
Certification	EN 1078
